

## **Reject the Playbook**

Up against advanced Regressives Non human intelligence

As a species with the advantage of a longer established civilisation and race, you have developed not only technology but also become advanced with the use of consciousness technology. So that means the use of things like psychic powers, telepathy, or telekinesis etc, being able to read minds and ability to move solid objects with the mind.

Not only this as part of your species biology to be telepathic so read other's minds, but also through a prolonged cultural development, have learned the physical processes and the mental psychological processes of your own species but also other species too, like humans.

This civilisations development is ubiquitous of an intelligent species learning and adapting and growing in more knowledge and capabilities.

So imagine if you had the ability to travel the stars 2 million years ago. So had understood advanced physics and the knowledge that came with that about how to manipulate physical "matter", and this advancement gave you a superior advantage over other species.

A long developed interstellar species would have an advantage over, and on many levels, the human population of planet Earth.

### **Hidden Controllers**

A strategy of war is to be invisible because then the enemy doesn't know who to attack. So you will never truly ever know who runs planet earth's governments.

Also governments are just the machinery that is used to enslave their populations. The laws are there to keep the public under control and uphold a false reality perception. The laws are flouted and disregarded for special individuals who are part of the club.

### **Depopulation events into Rolling Depopulation.**

Since WW1 and the cabals attempts to control the population with things like "Spanish Flu" in 1918 and other "medical" programs, humans have been experimented on and controlled. They want to sacrifice the soldiers who fought the wars so they couldn't tell of the evil and that both sides were working for the same boss.

### **The Agenda**

To reduce the human population

Their ways

Machinery of Society

## Education & Academia (Brainwashing & Indoctrination)

Results are a hypnotised person who believes what they have been programmed to believe. Binary thinking and not self-aware. Just in reaction mode. So you then have a collective population under mass hypnosis. That's why they made it illegal to hypnotise people showing the technique on TV, and made it only so they could use it secretly to entrance the population through the media.

## Death pathways

Covid, Flu shots, change in medication by doctors. Nil by mouth starvation. Closing down care facilities.

## The Aim

To take young minds and hypnotise them into a limited perception. Through jabs and toxins and media and indoctrination.

So that they are also programmed to reject their parents' and grandparents' knowledge in favour of social media influencers.

Is not to remove the population as such, but work the fit until they run out of life force, on false promises. Then remove them from society.

They want people hooked on the corporations and on the brands to feed their machine of profit to the top. They want to maintain invisibility so they can change society with incremental changes. Like introducing telephones, mobile phones, computers, the web, then a dependence on the web for banking and social communication and personal details and data collection.

## Anti Trust

The latest step is to take away your intellectual creative rights and protections, harvest other people's inventions and art and ideas and make profit from them

Also to remove the musician and artists and replace with ai.

Privacy is being taken away with facial recognition used unlawfully. Also intrusion into the home with Wi-Fi and smart devices spying on you at home and your phone making an infra-red scan to make a 3D avatar of you.

The digital ID can be hacked and you could be framed, or false accusations, or incorrect data, or restrictions placed without your consent.

So what can you do to remove yourself from the cabal's machine designed to kill you?

Buy local, ask is this local when you buy it.

## **Buy/Feed**

From local

independent businesses not corporations. Get to know them and form a relationship with them. You may be of service to them with your own skills or business.

Feed authentic energy systems and businesses that care about you as a customer. Cut your consumer energy feed to the corporations.

If you keep consuming not creating or generating, then you are not converting resources back to help you.

## **Inspect/research**

Look at your diet, remove processed foods and seed oils. Inspect how a company treats the environment or its staff.

## **Trust**

Stop voting and trusting MPs who are all corrupt, instead trust people in the community you know who have integrity. Trust yourself first and make your discernment much more sensitive to fake and false data.

## **Turn /Produce**

Turn your hand to your hobbies or passion for making things, things you can sell at local community markets. Produce, grow, create, make things you can make money from as a self-employed entrepreneur. Come out of consumer and be more creator.

## **Organise**

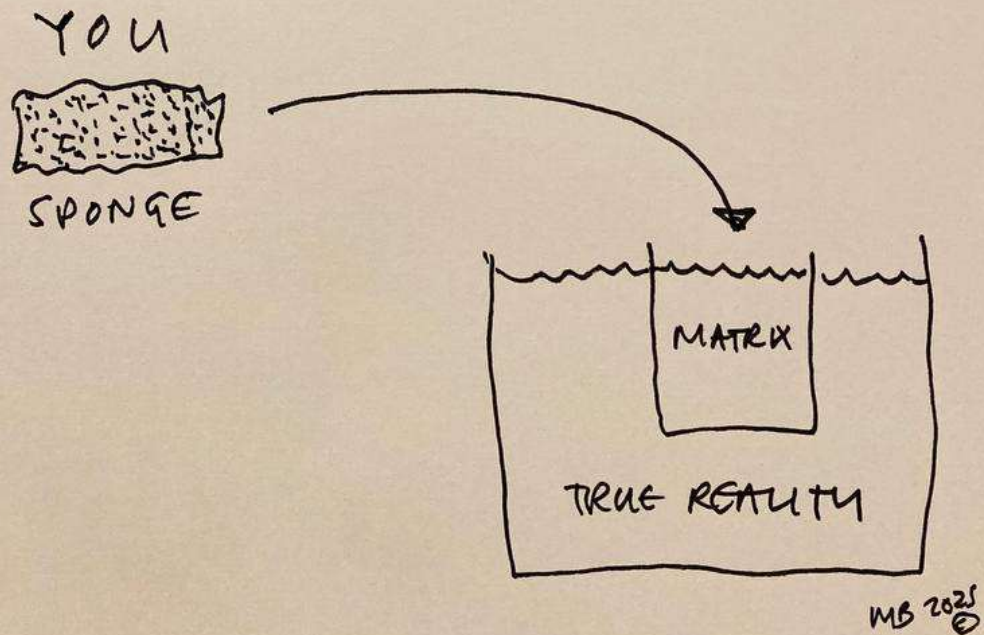

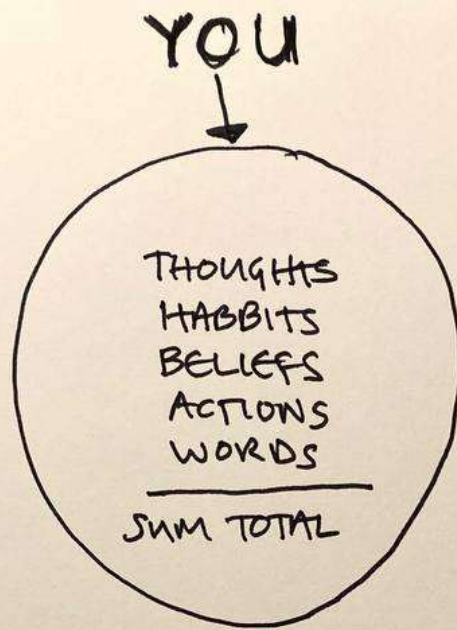

Jumble sales, food gatherings, community get togethers, projects, wellbeing events, community markets.

Self-sufficient and collective resourcefulness

Buy and feed those you can work with and who can buy off you.

## **Disconnect**

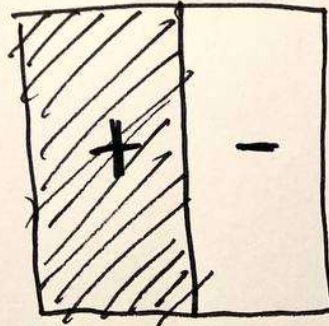

From financial contracts and debt contracts or revise and update them. Write off debts by a debt agency. End subscriptions

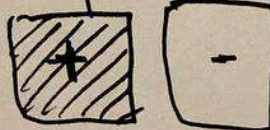

CHANGE HAPPENS WHEN YOU CHANGE  
NOT THE EXTERNAL.

CHANGE YOURSELF + YOU CHANGE THE  
EXTERNAL

BINARY

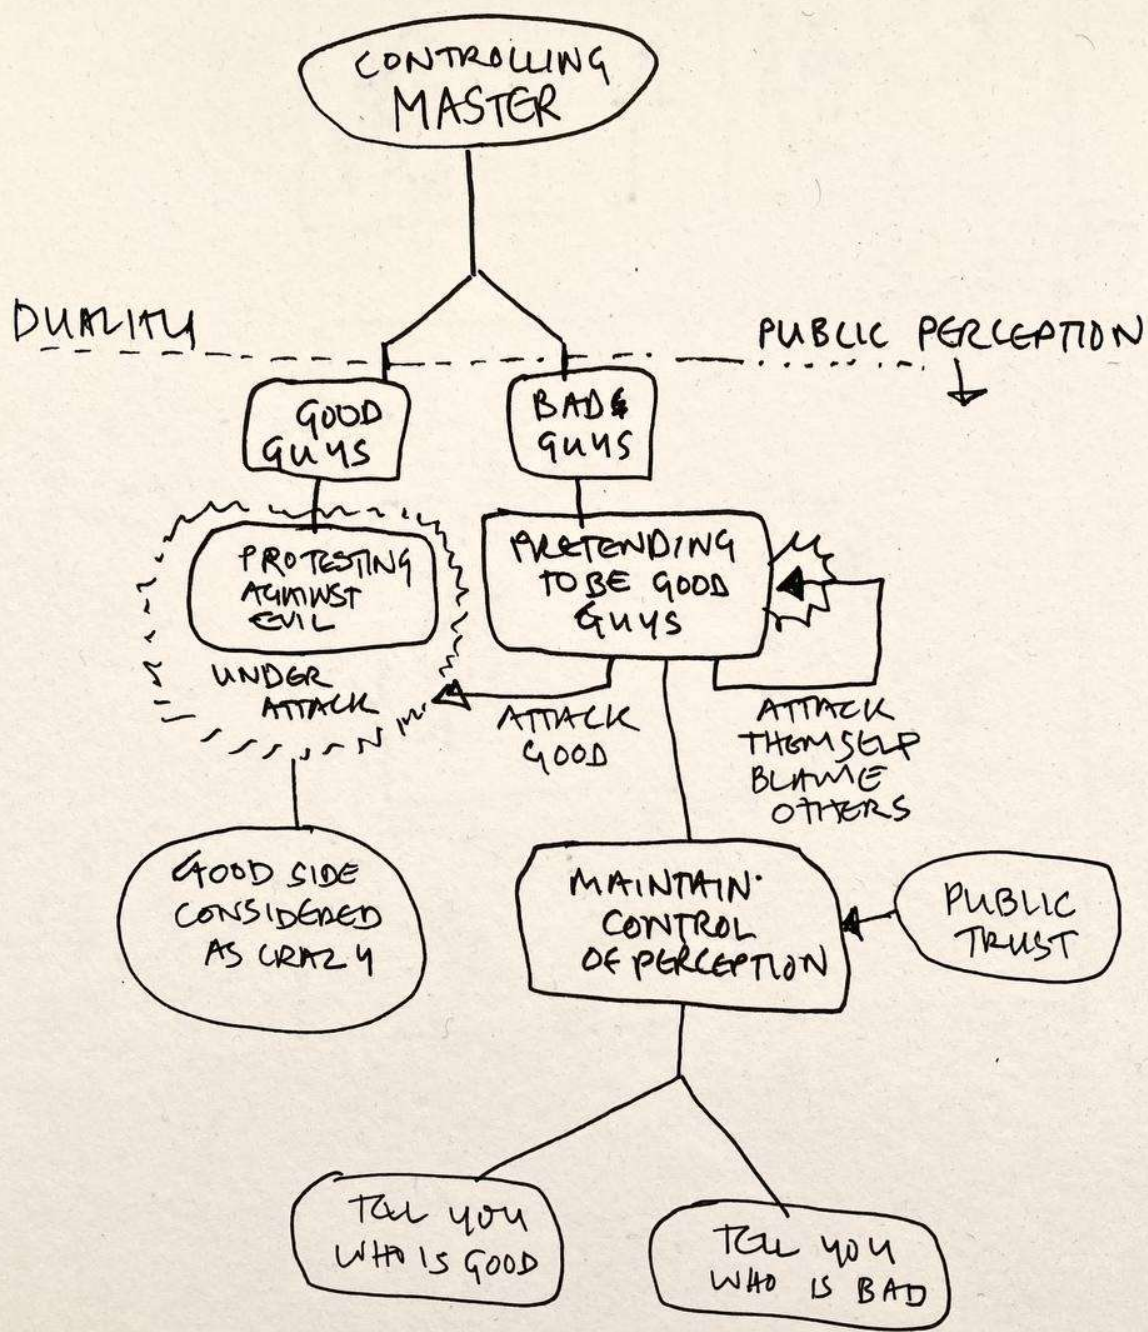

NEUTRAL

You can't say  
you are enlightened,  
because to say so  
would be thought of  
as not being so.  
You don't need to prove it,  
just know.
